

CURRICULUM VITAE

PERSONAL DETAILS

Full Name : Martin Kimiti Munyua
Date of Birth : 3rd September 2000
Nationality : Kenyan
ID Number : 37651649
Telephone : 0713519832
Email : martinkimits@gmail.com
GitHub : github.com/MKings7
LinkedIn : linkedin.com/in/martinkimiti
Location : Nairobi, Kenya

CAREER OBJECTIVE

Versatile ICT professional with 5+ years of experience spanning systems administration, software development, and digital transformation. Proven track record in building web applications, managing enterprise IT infrastructure, and delivering technical training. Seeking to leverage full-stack development skills, infrastructure management expertise, and data analysis capabilities to drive innovation and operational excellence in a progressive organization.

PROFESSIONAL EXPERIENCE

ICT COORDINATOR & SOFTWARE DEVELOPER

Chantilly Schools, Nairobi

March 2019 – Present

Software Development & Web Applications:

- Developed and maintained custom web applications using PHP, HTML5, CSS3, and JavaScript, serving 300+ students and 80+ staff members
- Built automated dashboards and data reporting systems using Google Apps Script, SQL, and Python for attendance tracking, behavior monitoring, and academic performance analysis
- Designed and deployed school website and parent portal using WordPress, increasing parent engagement by 45% and reducing communication overhead
- Created internal management systems for lesson planning (Teachers Again platform integration), leave applications, and administrative workflows
- Developed database solutions using MySQL for student records, inventory management, and reporting systems

- Implemented responsive web design principles ensuring mobile accessibility across all school digital platforms
- Contributed to 10+ paid development projects including custom websites, database applications, and business automation tools for external clients

Infrastructure & Network Management:

- Architected and implemented network infrastructure upgrade to gigabit Ethernet, improving internet speeds from 10Mbps to 300Mbps and reducing connectivity issues by 85%
- Managed installation and configuration of Starlink satellite internet system, ensuring 99.2% uptime across 3 campus buildings serving 200+ users
- Administered Active Directory, Office 365 environment, and Google Workspace for enterprise-level user management and security
- Developed and enforced IT Fair Usage Policy optimizing bandwidth allocation and network resource management
- Configured and maintained network infrastructure including routers, switches, access points, and security protocols

Systems Administration & Technical Support:

- Provided comprehensive Tier 1-3 technical support for 50+ workstations, network printers, servers, and 30+ mobile devices
- Implemented automated backup and disaster recovery procedures ensuring zero data loss incidents over 5-year period
- Managed hardware procurement, installation, and maintenance for computer labs, administrative offices, and smart classrooms
- Deployed system imaging and software deployment solutions streamlining device setup and maintenance
- Maintained 95% user satisfaction rating through efficient troubleshooting and responsive technical support

Digital Transformation & Training:

- Led digital transformation initiatives reducing paper-based administrative processes by 40% through workflow automation
- Conducted technical training workshops on web development fundamentals, database management, Google Workspace, and cybersecurity best practices
- Introduced programming curriculum (Code.org, Scratch) for primary students, teaching 100+ students foundational coding concepts
- Trained 50+ teachers on educational technology tools and digital lesson planning methodologies

Key Achievements:

- Successfully managed KES 1.2M+ ICT infrastructure modernization project from requirements gathering through deployment
- Reduced IT support ticket backlog by 60% through implementation of ticketing system and preventive maintenance program
- Achieved zero cybersecurity incidents through proactive security measures, user awareness training, and network monitoring
- Built and deployed 10+ web applications and custom solutions for school operations and external clients
- Recognized for technical innovation in automating administrative workflows and improving operational efficiency

TECHNICAL COMPETENCIES

Programming & Development:

PHP | Java | Python | SQL | HTML5 | CSS3 | JavaScript | Google Apps Script | Object-Oriented Programming | Version Control (Git/GitHub)

Web Development & Frameworks:

Full-Stack Web Development | WordPress CMS | Laravel (Basic) | React (Basic) | Bootstrap | Responsive Design | RESTful APIs | Firebase | Database Design

Data Analysis & Emerging Skills:

SQL Database Queries | Data Analysis with Python | Pandas | NumPy | Matplotlib | Data Visualization | Excel Advanced Functions | Google Sheets Automation

Systems Administration:

Windows Server | Linux (Basic) | Active Directory | Office 365 Administration | Google Workspace Admin | System Imaging & Deployment | Backup & Recovery | User Access Management

Network & Infrastructure:

Network Configuration & Troubleshooting | LAN/WAN Setup | Router & Switch Configuration | Wi-Fi Management | Starlink Installation | Network Security | VPN Setup | Network Monitoring Tools

Hardware & Technical Support:

Desktop/Laptop Repair | Hardware Diagnostics | Printer Installation & Troubleshooting | Peripheral Configuration | Mobile Device Management | Remote Support Tools

Tools & Platforms:

Git/GitHub | Microsoft Office Suite | Google Workspace | Ticketing Systems | Remote Desktop | phpMyAdmin | MySQL Workbench | VS Code | Postman | Network Monitoring Tools

Professional Skills:

Technical Documentation | Project Management | Client Communication | Team Collaboration | Training & Mentorship | Problem Solving | Deadline Management

EDUCATION

Diploma in Information Technology

Kisii University | 2018 – 2019

Relevant Coursework: Network Administration, Database Management, Web Development, System Analysis & Design, Programming Fundamentals

Certificate in Web Design

Zalego Institute of Technology and Innovation | December 2016 – January 2018

Focus: HTML, CSS, JavaScript, PHP, MySQL, Responsive Web Design, User Interface Design

Kenya Certificate of Secondary Education (KCSE)

J.G. Kiereini Secondary School | 2014 – 2017

Mean Grade: C (Plain)

PROFESSIONAL DEVELOPMENT

Current Learning Focus:

- Python for Data Science and Machine Learning
- Data Analysis and Visualization (Pandas, NumPy, Matplotlib, Scikit-learn)
- Advanced Database Optimization and Query Performance
- Cloud Computing Fundamentals (AWS/Azure)

Completed Training:

- First Aid & Fire Safety Certification – Chantilly Schools (2024)
- Digital Design Fundamentals – Canva (2024)

PROJECTS & PORTFOLIO

Professional Development Projects:

- Custom web applications for business process automation (10+ completed projects)
- School management systems with integrated database solutions
- Automated reporting dashboards using Python and Google Apps Script
- Responsive WordPress websites for educational institutions and small businesses

- Database-driven inventory and student information management systems

GitHub Portfolio: github.com/MKings7

Complete project portfolio and code samples available upon request

CORE COMPETENCIES

- Full-Stack Web Application Development
- IT Infrastructure Design & Management
- Database Design & Administration
- Technical Support & Troubleshooting
- Digital Transformation & Process Automation
- Network Architecture & Security
- Software Development Lifecycle
- Technical Training & Capacity Building
- Project Coordination & Delivery
- Client Relations & Requirements Gathering
- Documentation & Policy Development
- Emerging Technologies Integration

INTERESTS & ACTIVITIES

- Active contributor to open-source projects and coding communities on GitHub
- Continuous learning through online courses in Data Science, Machine Learning, and Advanced Web Development
- Member of local IT professionals networking group and tech meetups
- Community volunteer focused on youth digital literacy and coding education programs
- Chess enthusiast and coding challenge solver
- Technology blogger sharing insights on web development and IT infrastructure

REFEREES

Mr. Gideon Gathuru

Manager, Chantilly Schools

Tel: +254 721 643 299

Mr. John Wahinya

Educational Consultant

Tel: +254 720 267 337

Mr. Philip Kamau

Lecturer, Kisii University

P.O. Box 408-40200
