ID: 37651649 | **DOB:** 3rd Sept 2000

CAREER OBJECTIVE

Versatile ICT professional with 5+ years of experience spanning systems administration, software development, and digital transformation. Proven track record in building web applications, managing enterprise IT infrastructure, and delivering technical training. Seeking to leverage full-stack development skills, infrastructure management expertise, and data analysis capabilities to drive innovation and operational excellence in a progressive organization.

TECHNICAL COMPETENCIES

Programming & Dev:	PHP Java Python SQL HTML5 CSS3 JavaScript Google Apps Script OOP Git
Web Dev & Frameworks:	Full-Stack Web Dev WordPress Laravel (Basic) React (Basic) Bootstrap RESTful APIs Firebase
Data Analysis & Python:	SQL Database Queries Data Analysis with Python Pandas NumPy Matplotlib Google Sheets Automation
Systems Administration:	Windows Server Linux (Basic) Active Directory Office 365 Admin Google Workspace Admin Backup & Recovery
Network & Infrastructure:	Network Configuration & Troubleshooting LAN/WAN Wi-Fi Management Starlink Installation Network Security VPN
Hardware & Support:	Desktop/Laptop Repair Hardware Diagnostics Printer Troubleshooting Mobile Device Management Remote Support Tools
Tools & Platforms:	Git/GitHub MS Office Suite Google Workspace phpMyAdmin MySQL Workbench VS Code Postman
Professional Skills:	Technical Documentation Project Management Client Communication Team Collaboration Training & Mentorship

EDUCATION

Bachelor of Science in Information Technology (Second Class Honours - Upper Division)	2021 – 2025
Mount Kenya University (MKU) Certificate Ref: BIT/2021/84792	
Diploma in Information Technology (Credit)	2018 – 2019
Kisii University Coursework: Network Admin, Database Management, Web Dev, Systems Analysis & Design	
Certificate in Website Design & Development	Dec 2016 – Oct 2017
Zalego Institute of Technology and Innovation Focus: HTML5, CSS3, PHP, MySQL, Bootstrap, JavaScript, Domain & Hosting	
Kenya Certificate of Secondary Education (KCSE)	2014 – 2017
J.G. Kiereini Secondary School Mean Grade: C (Plain)	

PROFESSIONAL EXPERIENCE

ICT COORDINATOR & SOFTWARE DEVELOPER	March 2019 – Present
Chantilly Schools, Nairobi	
Software Development & Web Applications:	
- Developed and maintained custom web applications using PHP, HTML5, CSS3, and JavaScript, serving 300+ students and 80+ staff members. - Built automated dashboards and data reporting systems using Google Apps Script, SQL, and Python for attendance tracking, behavior monitoring, and academic performance analysis.	

- Designed and deployed school website and parent portal using WordPress, increasing parent engagement by 45% and reducing communication overhead.
- Created internal management systems for lesson planning (Teachers Again platform integration), leave applications, and database solutions using MySQL.
- Contributed to 10+ paid development projects including custom websites and business automation tools for external clients.

Infrastructure & Network Management:

- Architected and implemented network infrastructure upgrade to gigabit Ethernet, improving internet speeds from 10Mbps to 300Mbps and reducing connectivity issues by 85%.
- Managed installation and configuration of Starlink satellite internet system, ensuring 99.2% uptime across 3 campus buildings serving 200+ users.
- Administered Active Directory, Office 365 environment, and Google Workspace for enterprise-level user management and security.

Systems Administration & Technical Support:

- Provided comprehensive Tier 1-3 technical support for 50+ workstations, network printers, servers, and 30+ mobile devices.
- Implemented automated backup and disaster recovery procedures ensuring zero data loss incidents over 5-year period.

Digital Transformation & Training:

- Led digital transformation initiatives reducing paper-based administrative processes by 40% through workflow automation.
- Conducted technical training workshops on web development, database management, and Google Workspace; introduced coding curriculum (Code.org, Scratch) for 100+ students.

Key Achievements:

- Successfully managed KES 1.2M+ ICT infrastructure modernization project from requirements gathering through deployment.
- Reduced IT support ticket backlog by 60% through implementation of ticketing system and preventive maintenance program.
- Achieved zero cybersecurity incidents through proactive security measures, user awareness training, and network monitoring.

CORE COMPETENCIES

• Full-Stack Web Application Development	• IT Infrastructure Design & Management
• Database Design & Administration	• Technical Support & Troubleshooting
• Digital Transformation & Process Automation	• Network Architecture & Security
• Software Development Lifecycle	• Technical Training & Capacity Building
• Project Coordination & Delivery	• Client Relations & Requirements Gathering
• Documentation & Policy Development	• Emerging Technologies Integration

PROFESSIONAL DEVELOPMENT

Completed Training:	First Aid & Fire Safety Certification – Chantilly Schools (2024) Digital Design Fundamentals – Canva (2024)
Current Learning Focus:	Python for Data Science and Machine Learning Data Analysis and Visualization (Pandas, NumPy, Matplotlib, Scikit-learn) Advanced Database Optimization Cloud Computing Fundamentals (AWS/Azure)
